Project Scope (Additional Integration Services)

This invoice covers additional services for the Shahad website, independent of the main website development cost.

Inclusions:

- Setup of Razorpay online payment gateway
 - Setup and API integration of Shiprocket delivery system
 - Coordination of payment account setup and backend connectivity
 - Basic testing of both systems on staging & live environments
 - Assistance with dashboard understanding (upon request)
-

Payment Summary

Item	Description	Amount (INR)
Payment Gateway & Shiprocket Setup (One-time)	Razorpay + Shiprocket Integration	₹3,200
Main Website Development (Billed Separately)	As per Invoice BHMK-001 – Not included here	—

Terms & Conditions

- **Timeline:** Integration will be completed by Thursday evening, 10 July 2025, provided all required credentials are submitted by the client in time.
- **Razorpay Fee:** All transactions made via the website will incur a 1.18% fee, as charged by Razorpay directly.
- **One-Time Setup:** This ₹3,200 charge is a one-time setup fee and does not include future reconfiguration or third-party service subscriptions.
- **Post-Integration Support:** A 7-day support window is included after integration, covering technical issues and initial adjustments. Any future changes or support after this period will be billed separately.
- **Refund Policy:** This integration service is non-refundable once setup work has begun, due to the nature of account linking and external service configuration.
- **Payment Terms:** This payment is separate from the ₹5,500 due for website delivery and must be paid independently.

Required Credentials from Client

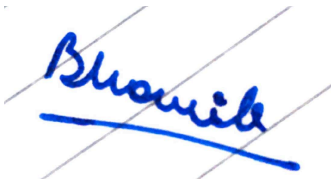

To begin integration, the following information must be provided by the client:

1. Razorpay business account email (or permission to create one)
 2. PAN and GST details (if applicable)
 3. Verified bank account for Razorpay payouts
 4. Shiprocket login credentials (or permission to register)
 5. Admin access to website backend and hosting (if needed)
-
